

Homework 4

Math 2568

Attempt before Monday, September 16, 2013

Jim Fowler

The listed homework is a *lower bound* on the number of problems you should be doing: doing more homework is a good idea.

The seven boxed problems have solutions in the back

Even if you don't do all the suggested problems (though you should!), the seven boxed problems really should be done since you can check your answers quickly in the back of the textbook.

Suggested Problems for Practice

From §1.6 (starting on page 61), do problems 7, 8, 9, 10, 11, 12, 16, 20, 26, 43.

From §1.7 (starting on page 71), do problems 11, 12, 25, 26, 30, 49.
